

Introduction to Linguistics – AN21002BA/AN2102OMA/AN28012BA

offered for 2nd-year students in the B.A. program in English Studies and students in the
Teacher Training Program
Fall 2022

Course Description

This course serves as an introduction to important areas of the study of language, namely morphology, syntax, and semantics/pragmatics. More specifically, it is aimed at providing students with some basic tools that they will need when they analyze various grammatical phenomena in language, which we will look at as a rule-governed system. The topics that we cover throughout the course include creativity, language change, inflection, derivation, constituent structure, recursivity in syntax, grammatical relations, simple versus complex clauses, semantic relations at the level of words and sentences, compositionality, thematic roles and conversational maxims. The course also provides a first introduction to argumentation in linguistics.

Practice

Handouts for most classes will be posted in e-Learning. The students will be informed of the availability of new class material via e-mail.

Grading

The final grade will be based on a mid-term test (40%) and an end-term test (60%). Retake opportunities will not be available for these two tests.

The grading scale in this course will be as follows:

91% - 100% - 5
81% - 90% - 4
71% - 80% - 3
61% - 70% - 2
0% - 60% - 1

Attendance

No more than three absences are allowed, illness included. Students arriving late for class will be marked as absent.
