

Argument Structure – AN5016MA

5-credit seminar
Spring 2023

Course Description

This course is about the syntax and semantics of argument structure. Our goal will be to discuss eight chapters from Williams (2015) in a highly interactive environment. Each class will start with a short presentation about the topic of the chapter assigned for class, followed by a student-led discussion from week 4 onwards. Every student will be assigned a topic in the first week of classes so that they can prepare discussion points for their topic.
